

How to Access SAS Visual Analytics Tools

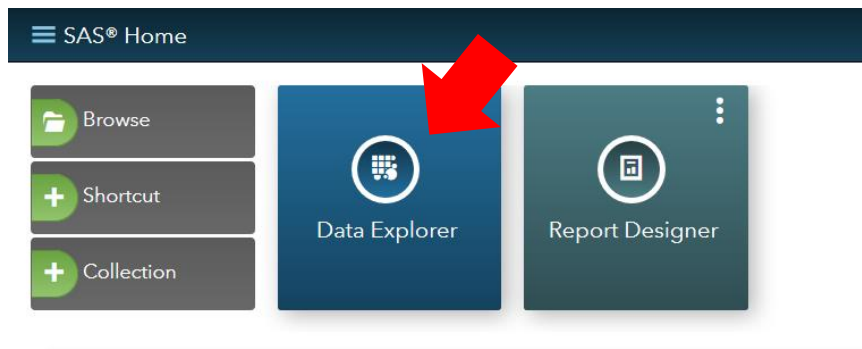

1. Go to www.teradatauniversitynetwork.com and sign in
2. Click on SOFTWARE and SAS Visual Analytics

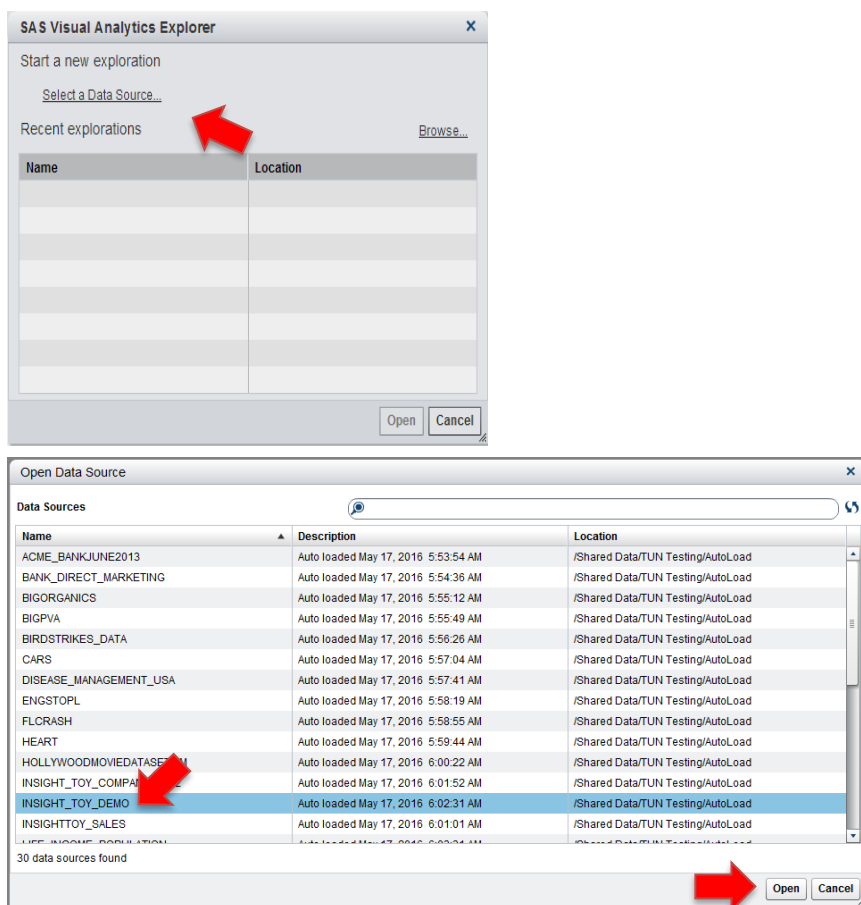

- ### 3. Click on SAS Visual Analytics

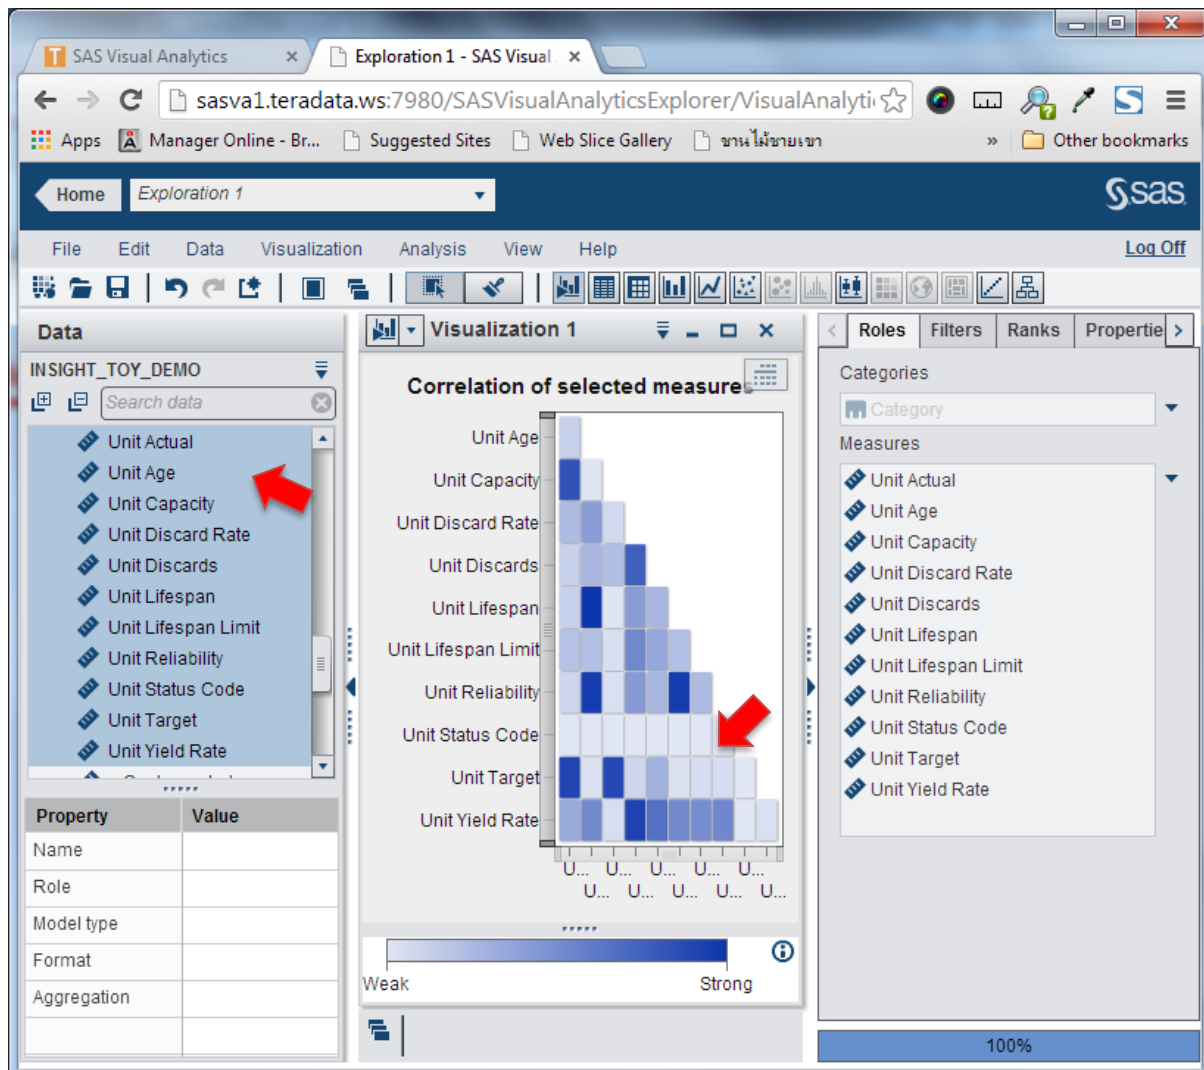

4. Click "Data Explorer"

5. Select a data source from the provided list

6. Drag and drop appropriate variables (Categories and Measures) from the left pane onto the visualization pane

Feel free to try different combination of variables and chart/graph types to sort and display your data
